STANBRIGII

EMBRYON RELIMATVM,

SEU

Vocabularium Metricum olim à IOHANNE STANBRIGIO digestum, dein à *Thoma Newtono* aliquantulum repurgatum.

Nunc verò locupletatum, defæcatum, legitimo nec non rotundo plerumque carmine exultans, & in majorem pueritiæ balbutientis usum undequaque accommodatum, extrema opera & industria IOH: [illegible]

LONDINI,
Excusum typis *I.N.* & venale prostat à I. KNIGHT.
1645.

Lectori Candido.

EN tibi hic Stanbrigium, qui dudum podagrâ laboravit, jam demum erecto tripudiantem pede. Quod si aliquoties adhuc vacillare videatur, mirandum non est; à tam gravi etenim morbo non nisi pedetentim datur invalescere. Ut ut est, at dignus saltem est, cui venia detur, medicus, qui dum vitam Stanbrigio meditatur, amittit suam: Ita quidem ut aliis usui esse posset, ut rei præsertim publicæ consuleret, de se semper parùm sollicitus fuit. Versibus profectò (ut apertè dicam) impar fuit illa provectior & ingravescens ætas; veruntamen cum pueris pueriliter lusit, idque non illubenter; adeò nihil unquam recusavit oneris indefessus senex, quo utilitati publicæ consultum iret. Quàm olei semper liberalis (ne dicam prodigus) fuerat, testantur satis volumina haud pauca, inter quæ consenuit, hæc quidem musis non ingrata, illa Ecclesiæ gratissima. Quàm neutiquam in senectute parcus fuisset, lucubrationes hæ pueriles inter quas extinctus est, modo diuturniorem paulo hujus lucis usuram illi Deus indulcisset, testatum reliquissent. Verum quorsum istac (inquis) in re tam levi inanis curiositas? Parùm est si pedibus laboret Stanbrigius, qui cæteroquin cordatus est & integer: Nihil est si carmina in puerulorum gratiam concinnata, rotundè modò fluant, subinde claudicent. Esto: ego planè tecum sentio. Quin reputes paulisper velim, quòd cum imitatrix admodum sit puerilis indoles facilè cum claudicante Stanbrigio una claudicabunt; qui cum arrecto pariter incedent pede. Quin & novimus universi sigilla, quæ ceris molliusculis nullo negotio imprimuntur, si quando obduruerint, quàm ægrè quàm nunquam excidunt: & latere non potest quantam docenti pariter & discenti molestiã creabunt anticipata falsisque τοήμασι, obstructa juvenum ingenia priùs quàm veritati hospitium præbeant. Nec tamen leve censeri debet si vocum quantitates puerorum animis unà cum lacte nutricis, ipsis nè vel somniantibus quidem, guttatim instellentur: adeoque recens illa mentis testula suavi illo thymiamate perfundatur, cujus odorem in omnem usque vitam sit redditura. Habe ergo tibi Stanbrigium (audacter dicam) verè rèlimatum, ubi si vocum quantitates spectes, en tibi Smetium; si Declinationes, Conjugationes, genera singulis vocibus apposita, ecce tibi in manibus Grammaticam, Dictionarium. Vale.

An

An advertiſement to the Reader.

FOr the full underſtanding of the Letters and Figures over the heads of every word: Note that the Declenſions, Genders, and Nouns if they be Subſtantives, are noted with figures and letters; where the figures ſhew the Declenſion, the letters the Gender: If they bee Adjectives of three terminations, *bo.* ſheweth them to be declined like *Bonus.* If of three Articles, *fel.* ſheweth them to be declined like *Felix. tr.* like *Triſtis.* Where *pl.* is added, it noteth that word to have only or uſually the plural number. Verbs are marked with figures, and the letter *C*, doth ſhew their Conjugations.

THE END.

SCiat paucis ingenuus & ingeniosus lector, quid in tertia hac editione accesserit novi; operarum mendæ, quæ irrepserant, emaculantur non paucæ; bis cocta earundem vocularum crambe parcius apponitur; vocabula extra stationes suas palantia, sub propriis jam vexillis militant; versus denique podagrici persanantur illi, qui remedium non ægrè admittebant; deploratis autem & contumacibus malagmata admovere operæ pretium non fuit; satis esse duximus, si ad oram libri indicaretur, ubi etiamnum laborant. Nec putetur tamen ista editio re quaq; morbifuga; adhuc enim sunt quæ fœliciorem manent Æsculapium.
